

**FOUR WOMEN HURT
AT A CHICAGO FIRE****PANIC AMONG MATCH FACTORY
EMPLOYEES.**

St. Charles, Minnesota, Burning Up, and Help Sent From Winona—Blaze at Sioux City Will Cost \$500,000—Cotton Burned at New Orleans—Other Blazes.

Chicago, March 22.—Four girls were injured by a fire in a match factory this morning. When the alarm was given a panic ensued and the young ladies were trampled on in trying to escape.

Winona, Minn., March 22.—A serious fire is raging at St. Charles, Minn. and aid has been sent from here. All communication has been cut off.

Sioux City, Iowa, March 22.—The destruction by fire of the Western Transfer and storehouse and elevator of Hubbard & Gere's linseed oil mill yesterday caused an aggregate loss of \$400,000. The fire started in the warehouse of the Western Transfer company, a basement covering a quarter block. The high wind which was blowing communicated the flames to the linseed oil mill across the street and it was partly destroyed and the greater part of its contents consumed. The wind communicated the flames to two big tanks owned by the linseed oil mills, and the platform on which they rested began to burn. Thousands of people had congregated by this time, and, when they saw the tanks on fire, there was a wild stampede.

The storage building was an immense structure, 150x60 feet, including a brick oil storage annex. The main part of the elevator was five stories high, and had a capacity of 150,000 bushels of flaxseed. In bins at the time were stored 100,000 bushels and on the lower floor several thousand tons of linseed oil cake were ready for the market. In the annex the oil was in huge tanks, having an estimated capacity of 120,000 gallons.

When it was plain nothing could be done toward saving the implement warehouse the firemen turned their attention to saving the oil mill storage house. Mayor Fletcher telegraphed to Le Mars and Missouri Valley for the fire departments in those towns, but when it was found that the fire could be controlled messages were sent to hold them back. The mayor received a telegram from Council Bluffs offering aid, but it was declined.

The huge warehouse of the Transfer company, 100 by 150 feet in size and with four stories besides the basement, was filled from top to bottom with farm implements and machinery. This machinery was owned by about twenty implement companies in different parts of the United States. The contents of the burned warehouse were covered by insurance aggregating \$31,750. The warehouse building itself was covered by \$30,000 insurance. The insurance on the oil mill cannot be obtained, as the National Linseed Oil company handles the insurance of all its plants. Franklin and Pennsylvania companies carried \$3,000 each and the Commercial Union \$5,000 on seed in the elevator.

COTTON IN A BLAZE.**Fire at New Orleans That Causes a
Total Loss of Over \$500,000.**

New Orleans, La., March 22.—Two squares of cotton presses and warehouses and 20,000 bales of cotton were burned yesterday morning, the total loss being over half a million dollars. The blaze originated in a bale of cotton in Yard No. 1 of the International Cotton Press company at Calipope and Peters streets. Owing to some unusual confusion in the yard Thursday night a number of bales of cotton were not covered with tarpaulins. Sparks fell on these and a brisk blaze was soon in progress. The loss on the cotton is estimated at \$500,000, on which is about \$360,000 insurance. The loss on the buildings is \$50,000, insured.

The building of the Kern Box and Coffin factory was also burned. Sparks from this fire caused the disastrous burning of the cotton presses. The loss was \$20,000 on building and stock, which is covered by insurance. The Orleans Coffin Manufactory and the McCann Iron foundry were damaged about \$5,000.

Blaze at St. Paul.

St. Paul, Minn., March 22.—Fire broke out last night in the basement of the block occupied by A. H. Schlick as a shoe store. An explosion drove out the doors at both ends of the store, but no one was injured. The total loss on the stock and building is estimated at \$85,000, on which there was \$70,000 insurance.

PLAN FOR ANNEXATION.**Prominent Hawaii Royalists Form a
Club with This Aim.**

Washington, March 22.—Late press advices received here from Hawaii say Charles B. Wilson, confidential adviser of the ex-queen, John Colburn, one of her cabinet at the time she was deposed, Antoni Rosi, attorney-general under the king, and John Richardson, formerly on the queen's staff—all of them prominent royalists—have taken part in forming an annexation club among the native Hawaiians. This is regarded as a declaration among the chief royalists that the monarchy is dead for all time. At a recent meeting in Honolulu these prominent royalists took part in forming a constitution and articles of belief.

Wolcott, democratic candidate for United States senator, withdrew from the contest yesterday, and all but one democrat voted for Edward Ridgely when the ballot was taken at noon. Lowry Will Succeed if George Resigns.

Vicksburg, Miss., March 22.—Should Senator George resign and his successor be appointed by Gov. Stone he would be in sympathy with the administration on finances. PLENTY OF WORK**FOR MR. GRESHAM****STATE DEPARTMENT HAVING
LOTS OF TROUBLE.**

Tangle of Affairs with Great Britain, Spain and Hawaii Take Up Much Time—England's Ultimatum to Nicaragua Said To Have Been Softened Considerably.

Washington, March 22.—Secretary Gresham and President Cleveland are holding almost hourly conferences nowadays, and it is a common sight to see the premier making for the white house with a big bundle of papers in his hands and important telegrams concealed about his person. Foreign affairs have become exceedingly complicated, and there are three or four sets of negotiations, each of which is giving the administration cause for many anxious conferences. Great Britain has been definitely asked to show its hand in the Nicaragua matter. The President is fully determined to uphold the provisions of the Clayton Bulwer treaty, which keeps the isthmus clear of foreign protectorates.

There is no doubt of the fact that the President considers the Nicaraguan matter the most important of the foreign complications which seem to have arisen, because of the fact that Great Britain seems to be paving the way for the acquisition of territory to which it does not even assert a claim. Meanwhile, the administration is in a hole about the Alliance affair. Minister Muruaga has been appealed to in vain. He says it is impossible to receive an answer from Spain until the new cabinet is ready for business. While the home government is in possession of the facts, no one but the foreign minister can reply officially to the United States.

The administration has prescribed for Minister Muruaga of Spain a dose of the same medicine administered to Minister Thurston. He was unquestionably guilty of having criticised the administration and Secretary Gresham in particular, in the most flagrant manner and in half a dozen interviews, and he will certainly be recalled by his government before long.

Navy officials are congratulating themselves on the prospect of active work in the near future, for watching specific countries for specific purposes is the next thing to a brush with a real enemy. There is trouble all the way from Yucatan to Orinoco, and the ships are being quietly concentrated to be in the best position to make tracks in any direction. Meanwhile the diplomats are full of speculation as to the outcome, and instead of discussing their favorite topic of coming wars in Europe are predicting that something will happen on these shores before many days. There is no doubt of the fact that the situation is serious, for there are possibilities of a clash at any time between the United States, Great Britain, Spain, France, Germany, Belgium, Venezuela, Columbia, Nicaragua, Guatemala and Mexico, and it is a wonder that Secretary Gresham, though fresh from a sick bed, is working morning noon and night at his rooms in the Arlington, in his office in the state department and in the cabinet-room at the White house.

THINKS IT WAS JUSTIFIED.**Semi-Official Statement of the Great
Britain-Nicaragua Affairs.**

London, March 22.—The following semi-official statement has been obtained in regard to the trouble between Great Britain and Nicaragua: Gen. Barrios, the Nicaraguan envoy, left London when the British demands were made for compensation in the sum of \$15,000 (\$75,000) for the expulsion from Bluefields of Mr. Hatch, the British consular agent there, and also for the appointment of a commission of adjudicate the damages sustained by the persons and property of British subjects expelled from the Mosquito reservation. Gen. Barrios, it is understood, has since submitted the matter to the government of the United States, with the object of enlisting sympathy and aid. The statement that Great Britain stipulated that no citizen of the United States should be a member of the commission mentioned is inaccurate. It is the opinion in diplomatic circles here that the demands of Great Britain are exceptionally small, and the aggravation warranted even severer measures.

Michigan Legislature.

Lansing, Mich., March 22.—The impression prevails that the general bills for the incorporation of cities can not pass the house. Opponents of the bills declare a careful canvass of the house shows sixty-five adverse votes. It was declared yesterday to give a general public hearing next Tuesday evening on the bill repealing the law which provides for the taxation of mortgages. The members of both houses left for Ann Arbor by special train yesterday, and will spend the balance of the week investigating the needs of the university.

Germany Will Change Ambassadors.

Berlin, March 22.—The semi-official North German Gazette announces that Prince von Radolin, German ambassador to Turkey, will be appointed in a similar capacity at St. Petersburg, in succession to Gen. von Werder, who was recalled a few days ago. The Kreuz Zeitung says Baron von Saurma-Jeltsch, now German ambassador to the United States, has been appointed as the successor at Constantinople of Prince von Radolin.

Diaz Does Not Want to Make War.

City of Mexico, March 22.—The telegraph reports published in the United States that President Diaz has asked or is about to ask congress for authority to declare war against Guatemala are pronounced absolutely untrue in certain that President Diaz in his mes- sage official circles. It is regarded as sage opening congress next month will render a strict and exact account of the negotiations.

NOW, MR. JERE DOBBS**YOU MUST GET OUT****SENATE PASSED THE BILL AF-
TER A FIGHT.**

Democrats Adopted Tactics of Obstruction, But the Measure Was Carried Down Their Throats by a Strict Party Vote, Ordered Engrossed and to a Third Reading—Other Work.

Madison, March 22.—The first hard fight in the senate occurred today over the bill retiring Jere Dobbs as labor commissioner. The democrats tried obstructions to the bill, but the republicans circumvented them and crammed the bill down their throats. It was ordered engrossed and read a third time by strict party vote. In the assembly bills were passed exempting wide gauge sieghs from taxation and creating a board of immigration.

MAY END IN RACE WAR.**New Turn of Affairs in Cuban Revolution.**

New York, March 22.—A special dispatch from Nassau, N. H., says: "Additional news continues to be received from Cuba of insurgent victories. The latest and most startling yet received is to the effect that Guillermo Moncada, the negro leader of the band near Guantanamo, wants to turn the revolution into a race war. It is also reported that Guillermo Moncada surprised a large detachment of Spanish troops near Guanamo recently and completely routed them. In this battle, it is said, 200 Spaniards were killed or wounded. This was followed by cruel and inhuman treatment of the Spaniards by Moncada's forces. There was but one white man in Moncada's detachment. After the battle he ordered this man to leave the camp, saying the whites had failed to free Cuba in the last war, and that now independence would be secured by the negroes. Moncada's idea seems to be to make another San Domingo of Cuba. His attitude is deplored by the sympathizers of the revolutionary movement. The assertion that the Alliance displayed the English flag when fired on is regarded as a mere subterfuge."

DYING FROM TORTURE.**Terrible Treatment of an Aged Couple**

Bradford, Pa., March 22.—At Palmer's Mills, a lonely spot on Marvin's Creek, Mr. and Mrs. Childs, an aged couple, were tortured and robbed by masked men last night, the robbers securing over \$600. The husband and wife were bound and gagged, while the robbers ransacked the premises, finding \$500. Both of the old people were put through the torture for the purpose of extorting more money. Mrs. Childs will probably die from the effects of the shock and torture, but the old gentleman will recover. Three suspects are being hunted by officers. If captured they will certainly be lynched.

Big Blaze in Alabama.

Opelika, Ala., March 22.—A telegram was received here at 10 o'clock yesterday that the whole town of Lafayette, Ala., was burning and asking for help. The whole business portion of the town is understood to be destroyed.

New York Girl Carries the Honors.

Nice, March 22.—Beautiful weather prevailed here to-day and the Battle of Flowers was a great success. The principal spectator was Queen Victoria, who drove from her hotel at Cimiez to witness the sight. Miss Van Buren of New York was awarded the first prize for the novelty and beauty of her turnout, which consisted of a pair of horses, tandem and a victoria, the vehicle having been transformed with flowers into a horn of plenty.

Michigan Women's Clubs.

Lansing, Mich., March 22.—One hundred women representatives of the women's clubs of the state have been here for the last two days perfecting the organization of the Michigan Federation of Women's clubs. Nothing has been accomplished aside from the adoption of the constitution and the election of officers.

State Administration Impracticable.

London, March 22.—A Berlin dispatch to the Times says the resolution adopted by the state council declares that state administration of the trade in cereals is impracticable. EVANSTON DEATH LIST GROWS**The Victims in the Mine Disaster Now
Number Sixty Men.**

Evanston, Wyo., March 22.—The details of the explosion at the Rocky Mountain Coal and Iron company's mine No. 5 at Red Canon mark it as one of the most horrible in the history of coal mining in the west. The bodies of nineteen victims have been recovered. There are over fifty widows and 250 orphaned children as a result of the disaster. The names of the dead as gathered from the company's pay roll are:

Willard Brown, James Bruce, Aaron Bull, Henry Burton, Albert Clark, Charles Clark, James T. Clark, Samuel Clay, W. E. Cox, Jerry Crawford, Geo. Critchley, John Dexter, John Fearn, William Graham, Jr., W. H. Grieves, James Haden, Samuel Halston, George Hardy, James Hutchinson, Thomas Hutchinson, H. A. Hyborn, George Hydes, Isaac Johnson, Matt Johnson, Baptiste Julian, Gus Kazola, Charles Kazola, Marshall Langdon, John Lester, Joseph N. Lesti, James Limb, David Lloyd, John G. Locke, David W. Lowrey, O. B. Maltby, John T. Martin, Walter Miller, Fred Morgan, John Morris, William Morris, William Pope, Henry Scotlan, William Sellers, Jr., William Sellers, Sr., Matt Silta, Hugh Sloan, John Theby, William Wagstaff, William Weedup, John Wilkes.

About thirty of the men killed belonged to the A. O. U. W., in which order they were insured for \$2,000 apiece. It is estimated that sixty men perished in the disaster. Seven were killed on the outside whose names have not been given.

The bodies of the following men have been recovered:

Thomas Booth, Willard Brown, Chas. Clark, W. B. Clark, Samuel Clay, Benjamin Cole, W. H. Grieves, Samuel Hutchinson, G. Hyde, D. Laurie, James Linib, John Locke, Fred Morgan, John Morris, William Morris.

The disaster occurred at 5:45 o'clock Wednesday evening. The explosion in the mine shook the whole country around, wrecked the power plant, a fan house and several other buildings, entailing heavy loss, but the death toll far overshadows all other considerations. The bodies that have been recovered were burned and blackened with garments torn to shreds, making it almost impossible to identify them. How many were in the mine at the time of the explosion will take time to tell, but the best information obtainable now places the number at over eighty. Nearly all known to be killed leave large families.

Immediately after the explosion Superintendent Bradbury telephoned to Evanston for all the physicians, with an extra train. The relief corps, carrying lanterns, got ready to descend in hopes of rescuing alive some of the victims. Brave men had tried to descend some of the air slopes and escape slopes without success and it was not until three hours after the explosion that a volunteer party passed the main entrance to the slopes and soon afterward returned with two bodies. Then it was reported that caves stopped further progress down the slope. A party went down to shovel out the caves, after which the searching party again entered and work in that line proceeded. A few lives were saved because of the time of the explosion. The miners quit work at 6 o'clock and it is customary for them to be near the entrance and come out just as the whistle blows. A number of men had come out and some had just left the entrance to the mine slope, away from the working tunnel, when the explosion occurred, thus escaping death.

Around the mines is a population of about 2,000. A more sorrowful community could not be found. The explosion is supposed to have come from a blast setting fire to dust, making a dust explosion, since the mine was supposed to be free from gas, being well ventilated. This is the third disastrous explosion in this vicinity. In 1881 No. 2 mine, Rocky Mountain, exploded, killing thirty-six Chinese and four white men. In the spring of 1889 an explosion in Union Pacific mine No. 4 killed thirty-six men.

HUMPHREY BILL.**Passes the Illinois Senate by a Vote of
28 to 18.**

Springfield, Ill., March 22.—Mr. Humphrey's bill legalizing pool-selling at race tracks and allowing racing throughout the year was passed by the senate yesterday by a vote of 28 yeas to 18 nays. There was practically no opposition to the bill. Senator Sawyer of La Salle being the only one who spoke against it. Senator Aspinwall called up on second reading his bill allowing ninety days' racing during the year, and it was advanced without opposition. It was then made a special order for next Wednesday on its passage. Senator Hunter's bill amending the law in relation to the assessment of building and loan association stock came up as a special order on third reading in the senate and passed.

The following bills were passed: Paisley's, fixing the rate of interest upon redemptions from sales of land under executions at 6 per cent; Sawyer's, providing that not more than three high school trustees shall be elected from the same district. Senator Salomon called up his resolution authorizing a committee of six senators to investigate alleged evils in the department stores adopted and the senate adjourned.

In the house Mr. Neel called up the military emergency appropriation bill, which was passed by the senate, then sent to the house, which amended it by striking out the amount asked for furnishing the militia with uniforms to take the place of those worn out during the strike last summer. The senate refused to concur in the amendment. The house refused to recede from its action by a vote of 48 yeas to 85 nays. Mr. Needles moved that the speaker appoint a committee of three to confer with a like committee of the senate for the purpose of fixing an agreement if possible. The motion prevailed.

Mr. Kitzmiller's resolution denouncing President Cleveland's administration of the national government on account of his attitude toward old soldiers, their widows and orphans, came up as a special order. Mr. LeCron, in behalf of the democrats, offered a substitute in which all administrations since the war were eulogized for the noble manner in which old soldiers had been cared for. The substitute was defeated by a vote of 51 yeas to 82 nays. Kitzmiller's resolution was postponed until next Wednesday. Mr. Lowenthal introduced a bill revising the law in relation to mortgages.

American Apples in Demand.

Washington, March 22.—The foreign demand for apples grown in the United States has always been in excess of the supply. Great Britain alone, during the nine months ending September, 1894, paid the orchards of the United States \$2,500,000. In view of the fact that the entire apple crop is sometimes threatened by the worms that infest the trees, Secretary Morton has had the matter investigated and finds that spraying with a solution of paris green is a simple and effective remedy which he urges all farmers and horticulturists to try.

His Own Wife the Victim.

Shelbyville, Ind., March 22.—Calvin Ross, a prominent citizen, wishing to catch a burglar who had been bothering him, yesterday loaded his shotgun and attached it to his cell door in such a manner that it would be discharged into the body of the person opening the door. She will be crippled for life.

A Pugilistic Earl.

London society is much interested in an incident reported from Bucks, in which the earl of Orkney, who a few years ago married Connie Gilchrist, was the principal figure. The earl was walking out a few days ago with the countess' pet dog and met some roughs who had a bull terrier which they set on the countess' pet. The earl called upon them to desist, which they insultingly refused to do, whereupon he went for the biggest of them in true pugilistic fashion. A ring was formed, and there was a hot fight to a finish. The earl came off victor, leaving his opponent in a battered and helpless condition. The earl came out of the encounter almost unmarked. He was heartily congratulated the next morning at the meet of the hounds on his triumph.

Baby Contest.

Interest in the baby contest is increasing every day and new names are being added to the list. If you want your baby entered for the prize send in the name. Fiveshares of stock in the Rock County Building Loan and Savings association is well worth making an effort to secure. It means \$500 in money in 1904 only nine years away. The association is one of the best ever organized. Its officers are well known to Janesville people and the stock is as reliable as bank stock. Somebody's baby will receive five shares of the stock the first of June as the result of the Gazette contest.

SCROFULA CURED
Miss Della Stevens, of Boston, Mass., writes: I have always suffered from hereditary Scrofula. I tried various remedies, and many reliable physicians, but none relieved me. After taking six bottles of S.S.S. am now well. I am very grateful to you, as I feel that it saved me from a life of untold agony, and shall take pleasure in speaking only words of praise for your wonderful medicine, and in recommending it to everybody afflicted with this painful disease.

CAUCUS AND CONVENTION DATES

Former Will Be Held March 25 and the Latter March 26.

The republicans of the city of Janesville will meet in city convention at the common council chamber, on Tuesday, March 26, 1895, at 2 o'clock p. m., for the purpose of placing in nomination candidates for Mayor, City Clerk, School Commissioner-at-Large, Street Commissioner, Justice of the Peace, and Sealer of Weights and Measures, to be voted for at the regular city election to be held on Tuesday, April 2, 1895, and for the transaction of such other business as may come before the convention.

The several wards will be entitled to representation as follows: First ward, 7; Second ward, 5; Third ward, 7; Fourth ward, 5; Fifth ward, 3.

The ward caucuses will be called by the several ward committees for Monday evening, March 25, at the usual places.

By order of the republican city committee, T. W. GOLDIN, Chairman, Janesville, Wis., March 13, 1895.

COUNTY OPTION.

County option, or prohibition in another form, is just now being agitated before the Wisconsin legislature. Hon. T. C. Richmond made an earnest plea in favor of the bill a day or two ago, and Mrs. Vie Campbell of Evansville, spoke in the interests of the W. C. T. U. Mr. Richmond claimed that in Rock, and several other counties in the state, the counties could regulate the saloon business in the cities, and that the bill was equitable and just from a legal standpoint.

He cited Janesville and Beloit as cities that would be greatly benefited by the measure.

With due deference to Mr. Richmond's opinion, and with the most kindly feeling toward the ladies, who are so enthusiastic in temperance work, The Gazette must beg to differ.

Law, which is always in advance of moral sentiment, is always a dead letter on questions of morality, until public sentiment demands enforcement. Murder, theft, embezzlement, and a long list of criminal offenses are under control of law, because public sentiment, universally condemns them. But when questions of morality, embracing temperance, Sabbath desecration, gambling and like offenses only are involved, nothing but the moral sentiment of the community where they exist can effectually control them.

That they are not controlled is painfully evident, to the most indifferent observer, but the cold fact remains that they are not, and the logic of events has long since determined that, "what can't be cured, must be endured" and controlled with the best ability that moral sentiment will supply.

The best friends of temperance and moral reform, are not found in the ranks of the third party, not because they are not enthusiastic, but because of the fact that their enthusiasm plays havoc with judgment, common sense, and every other qualification that enters into practical government.

The passage of a county local option law would mean adding one more to the long list of inoperative laws, with which the statute books are already burdened. The saloons of Janesville, and many other cities in the state, would be closed in sixty days, if the laws already enacted were enforced. The clause of the old law, which says in substance that the business may be made so burdensome that no man can afford to stay in it, simply means that a dealer may be followed with fines and penalties, until he becomes disgusted with the fight, and retires for self protection. The reason why these laws are not enforced is because the moral sentiment of the community does not demand it.

County option would meet with a similar experience. The country might out-vote the cities, but the country will never furnish the material to enforce municipal government. Iowa, with a state prohibitory law behind it, found it not only impractical, but conducive to lawlessness. The city of Ottumwa, with a population of 20,000, had one hundred saloons, and each one of them paid a fine of \$100 a month for keeping, not a saloon, for that the law prohibited, but a disorderly house, which was infinitely worse. Men paid for the privilege of being lawless, and as a result, drunkenness, crime and debauchery were more prevalent than ever before.

Temperance like honesty is practiced by a large majority of the people in Wisconsin and every other state in the Union, but third party prohibition, like sanctification, belongs to the realm of perfection, to which the average mind, struggling with the practical questions of every day life seldom aspire.

The latter professes holiness, and criticizes his fellows for not attaining the same lofty plain of experience. The former professes a high ideal of morality and censures in unstinted

measure, every man or woman who does not endorse his theories.

Both are representatives of a good class of people, but are generally recognized as too far in advance of the every day throng, to be of much practical value to humanity.

The best temperance laws that Wisconsin can hope for is a high license, that should be not less than \$1000, with the same safeguards provided that are enjoyed by Pennsylvania and Nebraska.

The county option law if passed would be a burlesque and the cities that it seeks to benefit, would be in a deplorable condition.

350 CORDS OF ROCK RAISED BY A BLAST

FIVE KEGS OF GIANT POWDER
IN ONE CHARGE.

C. K. Miltimore Bored a Six-Inch Hole Forty Feet Deep at His Quarry, Filled It With Explosives and Then Touched the Button—Other News of the Town.

THERE was an explosion of one hundred and twenty-five pounds of giant powder at the Miltimore quarry yesterday afternoon and three hundred and fifty cords of stone were blown out. But few people felt the shock, because there was hardly a shock perceptible and not nearly so much noise as made by a large cannon fire-cracker. A slight tremor of the earth in the immediate vicinity of the explosion was all the disturbance noted. Mr. Miltimore drilled a six inch hole forty feet deep in the solid rock and into this he poured one hundred and twenty-five pounds of giant powder. Then he attached the battery wires, filled up the hole and invited a number of his friends to witness the explosion. Many were too timid to respond, but Alderman Winslow saw it and said he never witnessed such a sight before. There was no noise, and no concussion he could hear or feel. The great bed of rock raised a little and then spread. Then came a volume of smoke, and there was the wreck. Nearly four hundred cords of heavy stone raised from a solid ledge, and most of it in good shape for loading on wagons. In a number of places a heavy seam was moved two or three feet. Many people on hearing what was going to take place, protested, fearing that all the glass in that part of the city would be broken, but when they were told last evening that the mine had been exploded successfully, they would not believe it until they visited the scene and surveyed the wreck.

THE CITY IS SUED BY MRS. SELLECK

TEN THOUSAND DOLLARS DAMAGES CLAIMED.

W. H. and E. D. Tallman Are Made Parties to the Suit, as the Complaint Alleges That the Plaintiff Fell on a Defective Sidewalk Abutting on Their Property Oct. 18, 1893

The city of Janesville and W. H. and E. D. Tallman were today made defendant in a ten thousand dollar damage suit.

Alfred P. Selleck is the plaintiff, and he bases his claim for damages on account of a defective sidewalk on South River street, abutting the property of W. H. and E. D. Tallman, upon which his wife, Mary E. Selleck, fell on Oct. 28, 1893, and was injured, as he claims, permanently.

The complaint, which was served on the city, this morning, sets forth that the alleged defective sidewalk is sixteen feet south of the northeast corner of the Tallman block on South River street; that the stringers of the sidewalk were rotten, that the plank which was laid on the stringers was rotten, warped and not sufficiently fastened, so that when a person stepped on one end of a board the other end would fly up; that there were holes in the boards covering the walk, that this condition of the walk was known to the city authorities for a year or more previous to Oct. 18, 1893.

Fell and Was Hurt.

It also sets forth that about 1 o'clock that afternoon, Mary E. Selleck was thrown prostrate upon the sidewalk by reason of her foot going into a hole in said sidewalk, and at the same time one of the boards forming a part of the covering of the sidewalk being tilted by some person stepping on the other end of it, and the same being insecurely fastened, she was thereby thrown and struck the ground with great violence, permanently injuring her spine, and breaking and injuring the tendon in the right foot, and that by reason of said throwing falling and injuring, of said Mary E. Selleck, she was greatly and permanently injured, and suffered great grievous and dangerous injuries therefrom, and that she has since that time, by reason of said injuries, been unable to walk to any extent, or help herself, or work, and that she has, by reason thereof, suffered great bodily and mental pain and anguish, and that she will continue to suffer great bodily pain and anguish through life. All this is attributed to the defective condition of the sidewalk, which is shown to have been known to the authorities, in that it had been ordered repaired, but that the orders were not enforced.

Expended Much Money.

In view of these facts the plaintiff sets forth that he has expended large sums of money for medicines and surgery, and for medical attendance upon his wife, and for her care and support, and that this expenditure will continue until the end of her life; that by this reason he has lost the society of his wife, her labor and her work, and thinks he has been damaged thereby to the extent of ten thousand dollars, and asks judgment for that sum.

City Attorney McElroy went to Madison this morning on city business and therefore the steps intended to be taken by the city in the matter could not be ascertained. It is claimed, however, that according to charter provisions, the property of the Tallmans' will be first liable for damages of this class, in which case should the judgment be granted, the city will have nothing except costs to pay, but it will be a forcible lesson that orders issued be strictly and promptly enforced. It often saves thousands of dollars to the tax payers.

We Are Having a Hat Sale.

Perhaps some may think the lines of stiff hats we advertise today at \$1 each are a lot of old stuff fixed up for the occasion. Such is not the case. An old established clothing house like ours would be foolish to advertise anything but facts. We say we have placed on sale new spring blocks at \$1 each, genuine fur hats worth \$2 and \$3. Come in and be convinced. T. J. Ziegler.

W. G. PALMER WAS NOT TO BLAME

Did Not Cause the Arrest of Mrs. C. J. Hanley As She Charges.

The impression seems to have gone out that W. G. Palmer had been getting the city of Janesville into a law suit in the case of Mrs. C. J. Hanley, who was locked up while soliciting subscriptions to the "Home Finder." This is a mistake. Mr. Palmer had no hand in the arrest and was not responsible for her detention. Mrs. Hanley had called at Mr. Palmer's store and he had questioned her rather closely but the arrest was not made at his instigation. Several other merchants had a similar experience and finally one of them reported the matter to the officers.

SHARON HAS A LIQUOR CASE.

J. L. Mahoney of This City, Is the Attorney For the Defense.

J. L. Mahoney is the attorney for the defense in the case of the State of Wisconsin vs. August Lompff and Earl Boyce of Sharon, who are charged with selling liquor without a license. The case came up in Justice Lamin's court, but on account of the absence of the principal witnesses in the case, Lars Peterson and Wilbur Coats, who could not be found, the case was therefore postponed until April.

An Acquisition.

The many friends of Frank Brown, who was for so many years head salesman at the Golden Eagle clothing house, and resigned a short time ago, will be pleased to learn that he has accepted a position with Mr. Goodman, clothier and furnisher at 15 West Milwaukee street. Mr. Brown will enter upon his duties Monday next, and will undoubtedly prove a valuable addition to this house, as he is very popular.

ALL HAVE HAMMERS FOR "THAT SLATE."

MUCH "KNOCKING" AT TO
NIGHT'S CONVENTION.

The Untried Have Risen in Their Wrath, Pulled Many Wires, and May Wreck the Ring—Life Long Republican Is Named For Supervisor in the Third Ward.

Members of the democratic ring walked about with long faces today. Bright and early the first jar came and it made their teeth rattle.

"William Gardner, the man nominated for supervisor in the Third ward is a republican," said one leader to another.

Then there was talk in several languages.

"I shall decline with thanks," said Mr. Gardner this morning. "I did not know anything about it until this forenoon, and was much surprised to hear of the caucus' proceedings."

Closely on the heels of this announcement came the notification that the untried had rebelled against the ring and that the slate would be broken in ten thousand pieces when it is referred to the city convention for ratification tonight.

Then there was more foreign jargon and the ring-masters set to work to put down the rack and file. Just how successful they will be, will not be known until after the convention, but both sides are confident.

This state of affairs was brought about by the vigorous wire pulling among the delegates today in relation to candidates for the various positions on the city ticket. The more grew until the indications now point to a stormy time in the convention.

It is now claimed that Washington Barriage will be urged by the Second ward delegation for the office of street commissioner, and that he will go into the convention tonight with the solid delegation of that ward, reinforced by a number of delegates from the First, Third and Fifth wards.

Martin Dunn is also mentioned as a possible candidate for clerk and there is no telling how much more trouble will be stirred up.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for the Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it. It will buy an education. It will buy a building lot. It will buy a piano and the lessons necessary to play upon it. It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below: The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

A Storm at Sea

Increases the discomfort of the voyager. But even when the weather is not tempestuous he is liable to sea sickness. They who traverse the "raging wetness" should be provided with Hostetter's Stomach Bitters, which quiet the disordered stomachs with gratifying speed and certainty. To the lurid influence of a tropical, malarious or too rigorous or damp climate, as well as to the baneful effects of unwholesome diet and bad water, it is a reliable antidote. Commercial travelers by sea or land, mariners, miners, western pioneers, and all who have to encounter vicissitudes of climate and temperature, incur in procuring it the best safeguard. It prevents rheumatism and pulmonary attacks in consequence of damp and cold. It is an efficient defense against all forms of indigestion. It can be depended upon in dyspepsia, and kidney trouble.

If the Baby is Cutting Teeth, sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

THE WOODMEN HAD A JOLLY TIME

Florence Camp Held a Pleasant Social Session Last Evening.

Members of Florence camp No. 866, Modern Woodmen of America, held a very pleasant social session at Liberty hall last evening and a large number attended. Venerable Consul William Marsden, presided, and the working team, composed of E. W. Parker, H. Bidwell, Levi Canniff, J. E. Leaf, John Hill, Robert Gesteland, C. B. Morris, Herman Kramer, C. A. Clark, J. Hines, C. Smith and G. L. Legge, with Henry Marsden as captain, gave an exhibition drill.

The program that followed was a very interesting one. John Matthews sang a vocal solo; Miss Lottie Pabst rendered a zither solo; Mrs. O. H. Brand recited; Charles La Point sang "Only to See the Old Place Again"; John Tuckwood and Clark Dutton gave a violin and harp duet and Miss Stella Tuckwood sang "Last Night". The numbers were much enjoyed and all who took part acquitted themselves with credit.

Mrs. L. M. Parks, state deputy supreme oracle for Wisconsin of the Royal Neighbors of America, was present and spoke in the interest of that order. It is an auxiliary of the Modern Woodmen and the lady members are insured for \$500 and \$1,000. Mrs. Parks stated that the order is experiencing a boom all through the jurisdiction. She expects to organize a lodge before leaving the city.

Luncheon was served after the program and dancing followed.

SLEEVES AND GOWNS.

House Dresses of Soft, Bright Colors Show the Watteau Back.

Sleeves of the gigot fashion or having a balloon puff up above the elbow are as fashionable and quite as large as ever. A pretty effect on soft material is the bracketing of the full balloon, with ribbon or flowers suited to the occasion. When the bracketing is in harmony with the color of the gown or in complementary contrast, the effect is excellent, or, what pleases an ultra fashionable dresser more, it is decidedly smart.

HOUSE GOWN.

Bretelles to match considerably enhance the effect. It is wonderful what a few well thought out touches can do in a toilet, and a woman with a keen sense of color is always sure to be better dressed, if less expensively, than one who dresses by rule, with no guiding taste of her own.

A decided novelty is the princess pelisse of tan or buff face cloth. The cut, as the name advises, is the princess, all in one. The back is elegantly but slightly trained, spreading out from three padded and rounded folds. The back seams of the bodice part are trimmed with embroidery or any rich confection such as the artistic soul loves. There is a full round collar of fur. But the piece de resistance is the oversleeve. This is in plush or velvet and hangs to below the hips in a sort of loose cape, lined with colored satin or brocade. It is gathered into three very full and rounded folds on the shoulder only an inch or two below the fur collar. The color of the velvet can be what the taste directs.

House and tea gowns are of soft, bright colors this season, the most fashionable tints being turquoise blue, maize and geranium. The wateau back prevails, and the neck is usually encircled by a ruffle of lace or gauze. The girdle is of ribbon or beaded galloon. These gowns are mainly of surah or crepon and are often accented with plaited. The one shown in the sketch is of elegant crepon with a wateau back, full front and ribbon girdle. The adjustable collar and cuffs are of white organdie trimmed with yellow valenciennes lace.

CLEANING FUR GARMENTS.

A Clean Sponge, With Cold Water, Will Accomplish Wonders.

The time approaches when fur garments must be laid aside, and it is important that they should not be packed away in a soiled condition. A sealskin jacket may be renovated by stretching it over a board or table and treating it according to the following directions:

Begin with the greater portion of the garment pulled over the side next to the operator, the bottom at the left hand. With a clean sponge wet in cold water and squeezed as dry as possible carefully rub from the bottom to the top. If there are spots or places where the fur is matted or packed, see that there is sufficient moisture to loosen whatever gumminess there may be. It may be rubbed again and again with the sponge. If this does not loosen it, a comb with wide apart teeth should be gently passed through it, taking care not to tear out the matted places. If the defacing has been done by any sort of adhesive mixture that does not come away by the use of water, rub the place until it is partly dry, then pass the comb underneath and wet the tips of the hairs with a little alcohol. Varnish and paint may be removed in this way. The latter, however, is better taken out with chloroform, but this must be applied with the utmost care, or it may discolor the fur. When all the spots are removed, continue the process of wiping the fur with a wet sponge, carefully pushing the garment over on the board, taking pains not to wrinkle it. When it is all gone over, examine it with the greatest care to see that the fur is as smooth and flat as possible. Any irregular spots must be gone over again. Put the garment on a coat hanger and suspend it in a cool place, the cooler the better if it does not freeze. When it is entirely dry, which will probably not be until the next day, take it into the out of door air and shake it thoroughly. If the work has not been well done, it will be necessary to repeat it. Indeed it will be well to do so if the fur has been very much soiled and does not look glossy and clean.

SURAH TOILET.

Buttons are used again much for bodices, the sides of skirts, on the basques of jackets or anywhere they can seem to be useful.

A Cunning Patient.
Muller meets his friend Nagel at the Turkish baths. Each is troubled with a gouty foot and has been ordered massage by his doctor. During the operation Muller cried out lustily with pain, whilst Nagel maintained a stolid composure, greatly to Muller's astonishment, who afterward asked him: "How could you stand the rubbing so quietly? Didn't it hurt you atrociously?" "Nothing of the kind," smilingly replied Nagel. "I simply held out my healthy foot."—Lustige Blaetter.

A Convincing Proof.
An old man went into a life insurance office and asked to be insured. The company asked his age. His reply was ninety-four.
"Why, my good man, we cannot insure you," said the company.
"Why not?" he demanded.
"Why you are ninety-four years old."
"What of that?" the old man cried.
"Look at the statistics, and they will tell you that fewer men die at ninety-four than at any other age."—London Spare Moments.

ALL OVER THE GLOBE

—Dr. Pierce's Pleasant Pellets are known. They are far more effective in arousing the liver to action than the old-fashioned cathartic pills, calomel or other preparations, and are purely vegetable and perfectly harmless in any condition of the system. No care is required while using them. They cure biliousness, sick headache, costiveness, sour stomach, windy belchings, heart-burn, pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Montgomery, Orange Co., N. Y.
Dr. PIERCE: Dear Sir—I suffered untold misery with bleeding piles. I could get no relief night or day, until I commenced using your "Pleasant Pellets," and now for two years or more, I have not been troubled with the piles; if my bowels get in a constipated condition, I take a dose of Dr. Pierce's Pleasant Pellets, and the trouble is all dispelled by next day.
